Andres Värnik

Technical Support Engineer | SQL and API Troubleshooting | Mentoring

Tallinn, Estonia • +372 56961401 • viva.la.nick13@gmail.com

Hands-on SaaS support experience at Linnworks. Turns technical investigations into clear customer solutions, mentors new colleagues and improves everyday support workflows.

PROFESSIONAL EXPERIENCE

Customer Technical Support | Saule IT OÜ

Tallinn | Feb 2026 - Present · Previous tenure 2023 - 2024

- Handle high-volume technical and account enquiries, including payment-related cases that require careful verification and accurate records.
- Coach new hires during live work, reviewing cases and helping them build confidence.
- Contribute to the workflow improvement committee; helped revise shift duty allocation and Slack coordination.
- Built a break-tracking bot using GPT and no-code tools.

Technical Support Engineer | Linnworks

Estonia | Apr 2024 - Feb 2026

- Supported business customers by phone, chat and tickets across orders, stock synchronisation, marketplace integrations, shipping and automation.
- Wrote SQL queries, inspected API calls and responses, and reproduced issues in a sandbox to investigate failures.
- Collected logs and prepared developer escalations with reproduction steps and supporting evidence.
- Mentored a new hire through daily case reviews, feedback and coordination with the team lead.

Robot Operator and Mapping Specialist | Starship Technologies

Estonia | 2020 - 2022

- Operated delivery robots, worked on 2D and 3D maps, and reported internal software issues.
- Helped train and assess new hires through practical case studies.

Customer Support Specialist | Arvato Services Estonia

Estonia | 2018 - 2020
